

I'm not robot

**Continue**

redefinitions. You can participate in this event, even if you have reached the Daily Ark Points cover. Ark recognized this brilliant rock and recovered some of his memories. 1.2.290 was launched on January 11, but it was a small patch without very much of the 5th work of Ark, so I will combine them for this post. The number of auras will increase based on the number of improper enemies. After going for the abyss, he woke up with lost memories, and now struggles to find his true identity in this cautious situation. It's really a little better than the version of Ark because illum's magic circuits did not deteriorate! MAGIC CIRCUIT: The LEF race with your magic wings can use special magic circuits to convert freely attack into the magic attack. The Missions of ARK were added. In his final moments before they were assumed by the spectrum, somebody shouted his name, Albert. (Maximum Level: 1) Level 1: Consume 100 MP. In spectrum housing mode, this skill is improved for the jump instinct. All experience rates of the level ranges have been increased. Weak abyss (Lev. 10) Boiling the abyss (Lev. 30) In the abyss (Lev. 60) Light of the abyss (Lv. 100) devoured á Ć à Ć à Ć
